- 5 Preliminary Scientific Report on the risks of non conventional transmissible agents, conventional infectious agents other hazards such as toxic substances entering the human food or animal feed chains via raw material from fallen stock and dead animals (including also: ruminants, pigs, poultry, fish, wild/exotic/zoo animals, fur animals, cats, laboratory animals and fish) or via condemned materials. The present preliminary report prepared by a SSC Working Group was submitted to the SSC at its meeting of 18-19 March 1999. The preliminary opinion resulting from these discussions is available on internet as a separate document. For both the final report and the opinion to be based on an as wide scientific consultation as possible, the SSC decided to invite scientists, research laboratories and interested parties to communicate their comments, further contributions, possible additional evidence/materials etc. to the preliminary opinion and the attached report to the SSC secretariat, before 12 April 1999.
