PRINCIPLES AND GUIDELINES FOR THE CONDUCT OF MICROBIOLOGICAL RISK ASSESSMENT

CODEX

CAC/GL-30 (1999)

Table of Contents

INTRODUCTION

1. SCOPE

2. DEFINITIONS

3. GENERAL PRINCIPLES OF MICROBIOLOGICAL RISK ASSESSMENT

4. GUIDELINES FOR APPLICATION

4.1 GENERAL CONSIDERATIONS

4.2 STATEMENT OF PURPOSE OF RISK ASSESSMENT

4.3 HAZARD IDENTIFICATION

4.4 EXPOSURE ASSESSMENT

4.5 HAZARD CHARACTERIZATION

4.6 RISK CHARACTERIZATION

4.7 DOCUMENTATION

4.8 REASSESSMENT

Principles and guidelines for incorporating microbiological risk assessment in the development of food safety standards, guidelines and related texts

**Report of a Joint FAO/WHO Consultation
Kiel, Germany 18 - 22 March 2002**

Contents

- 1 INTRODUCTION**
- 2 BACKGROUND**
- 3 OBJECTIVES OF THE CONSULTATION**
- 4 SUMMARY OF GENERAL DISCUSSION**
 - 4.1 DEVELOPMENT OF GUIDELINES**
 - 4.2 "LESSONS LEARNED" FROM CURRENT MRA ACTIVITIES**
 - 4.3 DEVELOPING COUNTRIES**
- 5 CONCLUSIONS**

ANNEX 1 - LIST OF PARTICIPANTS

ANNEX II - LIST OF BACKGROUND PAPERS

ANNEX III - DRAFT GUIDELINES FOR INCORPORATING MICROBIOLOGICAL RISK ASSESSMENT IN THE DEVELOPMENT OF FOOD SAFETY STANDARDS

- 1 INTRODUCTION**
- 2 PRELIMINARY RISK MANAGEMENT ACTIVITIES**
 - 2.1 IDENTIFICATION OF A FOOD SAFETY ISSUE**
 - 2.2 INITIATING IMMEDIATE INTERIM DECISIONS**
 - 2.3 RISK PROFILE**
 - 2.4 INITIAL RISK MANAGEMENT DECISIONS**
 - 2.5 DEFINING PURPOSE AND SCOPE OF THE MRA**
 - 2.6 ESTABLISHMENT OF MRA POLICY**
 - 2.7 COMMISSIONING OF THE MRA**
 - 2.8 INTERACTION DURING THE CONDUCT OF THE MRA**
 - 2.9 PRESENTATION OF RESULTS FROM MRA**
 - 2.10 CONSIDERATION OF RESULTS OF MRA**
- 3 EVALUATING RISK MANAGEMENT OPTIONS**
 - 3.1 IDENTIFICATION AND SELECTION OF RISK MANAGEMENT OPTIONS**
 - 3.2 STEPS TAKEN IN EVALUATING RISK MANAGEMENT OPTIONS**
 - 3.3 USING MRA IN EVALUATION OF RISK MANAGEMENT OPTIONS**
 - 3.4 APPROACHES FOR ARTICULATING AN APPROPRIATE LEVEL OF PROTECTION (ALOP)**
 - 3.5 USING MRA TO ENSURE ACHIEVEMENT OF AN ALOP**

3.6 ESTABLISHING A FSO

3.7 COMMUNICATING THE EVALUATION OF RISK MANAGEMENT OPTIONS

4 IMPLEMENTATION

4.1 STANDARDS

4.2 USE OF FSO_s IN IMPLEMENTATION OF STANDARDS

4.3 USE OF MRA IN THE IMPLEMENTATION OF STANDARDS IN THE ABSENCE OF A FSO

5 MONITORING AND REVIEW

5.1 MONITORING

5.2 REVIEW

5.3 USE OF MRA IN MONITORING AND REVIEW

**ANNEX IV - USE OF ELEMENTS OF (QUANTITATIVE) MICROBIOLOGICAL RISK
ASSESSMENT BY INDUSTRY**

Initiation and Conduct of All 'Major' Risk Assessments within a Risk Analysis Framework

A Report by the CFSAN Risk Analysis Working Group

U. S. Food and Drug Administration Center for Food Safety and Applied Nutrition

March 2002

Table of Contents

- **Recommendations**
- **Contributors**
- **Acknowledgments**
- **Abbreviations and Acronyms**
- **Glossary**
- **Table of Contents**
- **Background**
- **Part I: Overview of the CFSAN Risk Analysis Framework**
 - What is Risk Analysis?
 - Characteristics of CFSAN's Risk Assessments
 - Risk Analysis Teams
 - Risk Analysis Activities
- **Part II. A Decision-Based Approach to Identify and Select Risk Assessments**
 - When is a Risk Assessment Needed?
 - What Type of Risk Assessment is Needed?
 - Who Coordinates the Identification and Selection Process?
 - How Are Candidate Risk Assessments Identified?
 - Four Phases of the Identification and Selection Process
 - Phase 1. Concept Generation
 - Phase 2. Problem Identification
 - Phase 3. Data Feasibility Determination (Evaluation and Recommendation)
 - Phase 4. Disposition (Selection)
- **Part III. Conducting Risk Assessment within the Risk Analysis Framework**
 - Step 1. Planning the Risk Assessment
 - Identify Participants/Form Teams
 - Define Scope and Develop Charge
 - Allocate Resources
 - Develop Timeline and Milestones
 - Determine Communication Needs
 - Step 2. Perform the Risk Assessment
 - Clarify scope of the risk assessment
 - Collect/Assemble Data and Information

- Develop and Validate Model
 - Prepare the Draft Document(s)
 - Step 3. Reviewing the Risk Assessment Documents
 - Step 4. Issuing the Risk Assessment Documents
 - Develop and Implement Roll-out Plan
 - Public Dockets
 - Issue Final Report
 - Follow up or Debriefing
- **Part IV: Conclusions, Recommendations, and Next Steps**
 - Conclusions
 - Recommendations and Next Steps
- **Appendix A: Components of a Risk Assessment**
- **Appendix B: Example Questions: Communication Between the Risk Managers and Risk Assessors**
- **Appendix C: Risk Communication Activities**
- **Appendix D: Criteria for Identifying Candidate Risk Assessments**
- **Appendix E: Criteria for Evaluating Technical Feasibility**

FAO/WHO Guidelines on Exposure Assessment of Microbiological Hazards in Food and Water

11 November 2002 Draft for Peer Review

Table of Contents

1 INTRODUCTION

1.1 BACKGROUND

1.2 EXPOSURE ASSESSMENT IN CONTEXT

1.3 PURPOSE OF THE GUIDELINES

1.4 SCOPE OF THE GUIDELINES

2 THE PROCESS OF EXPOSURE ASSESSMENT

2.1 PRINCIPLES

2.2 UTILITY AND TYPES OF EXPOSURE ASSESSMENTS

2.3 DEFINING THE PURPOSE AND SCOPE OF A SPECIFIC EXPOSURE ASSESSMENT

2.4 THEORY INTO PRACTICE

2.5 RESOURCES REQUIRED FOR EXPOSURE ASSESSMENT

3 MODELLING APPROACHES

3.1 INTRODUCTION

3.2 MODELLING THE PRODUCTION TO CONSUMPTION PATHWAY

3.3 CONSUMPTION

3.4 MODELLING MICROBIAL GROWTH AND INACTIVATION

3.5 REFERENCES

4 DATA FOR EXPOSURE ASSESSMENT

4.1 TYPES OF DATA USED IN EXPOSURE ASSESSMENT

4.2 DATA CHARACTERISTICS

4.3 POTENTIAL SOURCES OF DATA

4.4 DATA SELECTION AND UTILIZATION

4.5 REFERENCES

5 DEALING WITH DATA GAPS

5.1 OVERCOMING DATA LIMITATIONS

5.2 DATA COLLECTION

5.3 REFERENCES

6 VARIABILITY, UNCERTAINTY AND SENSITIVITY

6.1 UNCERTAINTY AND VARIABILITY IN EXPOSURE ASSESSMENT

6.2 SENSITIVITY ANALYSIS AND UNCERTAINTY ANALYSIS

6.3 REFERENCES

7 ASSURING EXPOSURE ASSESSMENT QUALITY

7.1 VERIFICATION

7.2 VALIDATION

7.3 PEER AND PUBLIC REVIEW

7.4 REFERENCES

8 COMMUNICATION IN EXPOSURE ASSESSMENT

8.1 COMMUNICATION DURING EXPOSURE ASSESSMENT

8.2 PRESENTATION AND COMMUNICATION OF RESULTS

9 SUMMARY

APPENDIX 1: EXAMPLE OF A QUALITATIVE EXPOSURE ASSESSMENT

APPENDIX 2 - CODEX PRINCIPLES AND GUIDELINES

APPENDIX 3 - POTENTIAL DATA SOURCES

APPENDIX 4 - TERMINOLOGY

APPENDIX 5 PROBABILITY DISTRIBUTIONS AND STOCHASTIC PROCESSES

- INTRODUCTION
- PROBABILITY DISTRIBUTIONS USED IN EXPOSURE ASSESSMENT
- STOCHASTIC PROCESSES AND RELATED DISTRIBUTIONS
- CONCLUDING REMARK

Hazard characterization for pathogens in food and water

(Microbiological risk assessment series; no. 3)

WHO/FAO 2003

Table of Contents

ABBREVIATIONS USED IN THE TEXT

FOREWORD

PREFACE

ACKNOWLEDGEMENTS

CONTRIBUTORS

1. INTRODUCTION

1.1 Background

1.2 Hazard characterization in context

1.3 Purpose of the guidelines

1.4 Scope

2. THE PROCESS OF HAZARD CHARACTERIZATION

2.1 Context

2.2 Principles

3. PROCESS INITIATION

4. DATA COLLECTION AND EVALUATION

4.1 Human studies

4.1.1 Outbreak investigations

4.1.2 Surveillance and annual health statistics

4.1.3 Volunteer feeding studies

4.1.4 Biomarkers

4.1.5 Intervention studies

4.2 Animal studies

4.3 In vitro studies

4.4 Expert elicitation

4.5 Data evaluation

5. DESCRIPTIVE CHARACTERIZATION

5.1 Information related to the disease process

5.2 Information related to the pathogen

5.3 Information related to the host

5.4 Information related to the matrix

5.5 Dose-response relationship

6. DOSE-RESPONSE MODELLING

6.1 The infectious disease process

6.1.1 Exposure

6.1.2 Infection

6.1.3 Illness

6.1.4 Sequelae and mortality

6.2 Modelling concepts

6.2.1 Threshold vs non-threshold mechanisms

6.2.2 Independent action vs synergistic action

6.3 Selection of models

6.3.1 Dose-infection models

6.3.2 Infection-illness models

6.3.3 Dose-illness models

6.3.4 Sequelae and mortality

6.4 Extrapolation

6.4.1 Low dose extrapolation

6.4.2 Extrapolation in the pathogen-host-matrix triangle

6.5 Fitting dose response models to data

6.5.1 Fitting method

6.5.2 Selection of the best fitting model or models

6.5.3 Uncertainty analysis

7. REVIEW

7.1 Validation of dose-response models

7.2 Peer and public review

8. PRESENTATION OF RESULTS

9. REFERENCES CITED

APPENDIXES

A. Outline of information to include in a hazard characterization

B. Glossary

Joint FAO/WHO Workshop on the Provision of Scientific Advice to Codex and Member Countries

27-29 January 2004, Geneva, Switzerland

CONTENTS

Acronyms and abbreviations

Executive summary

Recommendations

1. Introduction

1.1 Adoption of the agenda and appointment of chairpersons and rapporteurs

1.2 Workshop objectives

1.3 Organization and operation of the Workshop, including working group discussions .

1.4 Findings of the Workshop

2. Working group I - Essential principles, definitions and scope governing the provision of scientific advice

2.1 Scope and definition of scientific advice

2.2 Essential core principles for the provision of scientific advice

2.3 Advantages of developing a set of core principles

2.4 Mechanisms to enhance participation of developing countries

2.5 Harmonization of terminology, methodologies and outputs

2.6 Potential establishment of new programmes

3. Working group II - Management of the provision of scientific advice

3.1 Administrative and management systems for the provision of scientific advice to Codex and Member countries

3.2 Working relationships and interactions with Codex subsidiary bodies, including communication of scientific advice

3.3 Mechanisms to enhance participation of developing countries

3.4 FAO/WHO clearing house of risks assessments

3.5 Procedures for the submission of requests for scientific advice

4. Working group III - Procedures and mechanisms for the provision of scientific advice

4.1 Selection and effectiveness of experts

4.2 Data

4.3 Processes and procedures

4.4 Communication of scientific advice

5. Budgetary considerations

6. Next steps

7. Conclusions

Annex 1 - List of participants of the Workshop

Annex 2 - Agenda

Annex 3 - Issues assigned to the working groups

Annex 4 - Members of the working groups
